### 1. Radiological/Nuclear Medical Countermeasure Product Development Program

Release Date: 02-09-2009Open Date: 03-05-2009Due Date: 01-08-2012Close Date: 01-08-2012

Purpose The purpose of this funding opportunity is to solicit Small Business Innovation Research (SBIR) grant applications (Phase I [R43] and Phase II [R44, both new and renewal applications]) that are focused on specific Investigational New Drug/Investigational Device Exemption (IND/IDE) enabling product development activities for radiological/nuclear medical countermeasures leading to IND or ...

### 2. Probes for Microimaging The Nervous System

Release Date: 12-19-2008Open Date: 03-05-2009Due Date: 01-08-2012Close Date: 01-08-2012

Background An emerging area of scientific opportunity is the design and use of probes to study structure and function at the molecular and subcellular level in living cells. Approaches and tools such as labels that attach to specific peptide or nucleotide moieties, Fluorescent Resonance Energy Transfer, Green Fluorescent Protein (and mutant color variants), and genetically-engineered voltage or ...

### 3. Tools for Germplasm Cryopreservation

Release Date: 12-18-2008Open Date: 03-05-2009Due Date: 01-08-2012Close Date: 01-08-2012

Tools for germplasm cryopreservation have become increasingly important in enabling repositories to meet the needs for establishing banks of animal germplasm for current and future research needs. This funding opportunity announcement (FOA) solicits applications from SBCs for Small Business Technology Transfer (STTR) projects that propose innovative research in the areas of animal germplasm cryopr ...

### 4. Development of Biomarkers for Mental Health Research and Clinical Use

Release Date: 12-12-2008Open Date: 03-05-2009Due Date: 01-08-2012Close Date: 01-08-2012

Background Biomarkers are objective, measurable biochemical, genetic, or other biological indicators of a physiological or disease process. While some individual biomarkers are useful in biomedicine, complex conditions, such as mental illness, might benefit from constellations of several different biomarkers being used in concert. Whether used alone or in conjunction with others, biomarkers coul ...

### 5. 1: New Technologies for Liver Disease

Release Date: 02-11-2009Open Date: 03-05-2009Due Date: 01-08-2012Close Date: 01-08-2012

Liver and biliary diseases affect Americans of all ages and all walks of life. Collectively liver and biliary diseases rank in the top 10 causes of mortality in the United States. Chronic liver diseases affect between 5 and 10 percent of Americans and account for 1 to 2 percent of deaths in the United States. Gallbladder disease affects an estimated 20 million Americans and causes considerable mor ...

## **7. [Advanced Tools and Technologies for Cerebrospinal Fluid Shunts STTR](#)**

Release Date: 06-08-2009Open Date: 07-05-2009Due Date: 05-08-2012Close Date: 05-08-2012

Hydrocephalus is caused by a heterogeneous group of diseases and disorders that can affect individuals of any age, from infants to the elderly. Cerebrospinal fluid (CSF) shunts have been successfully used to treat hydrocephalus for over 50 years and are the most common treatment option for this disorder. In a typical shunt system, a catheter is used to drain the fluid from the brain to a site in t ...

### **10. [Technologies and Software to Support Integrative Cancer Biology Research](#)**

Release Date: 05-19-2009 Open Date: 07-05-2009 Due Date: 05-08-2012 Close Date: 05-08-2012

Purpose The goal of this Funding Opportunity Announcement (FOA) is to support the development as commercial products of software, computational/mathematical methods, and laboratory technologies that will facilitate, accelerate, and/or enhance integrative cancer biology research. This FOA encourages Small Business Innovation Research (SBIR) grant applications from small business concerns (SBCs) t ...
